MASTERINGENIEROS
A U T O M A T I C D O O R S

MASTER INGENIEROS

A Spanish company with over 40 years of experience in the manufacture and installation of automatic doors.

QUALITY AND STANDARDS

All products are of the highest quality and have been tested and certified to meet even the most stringent of European standards.

TAILORED SOLUTIONS

All doors are designed and manufactured to suite each customer, ensuring a perfect sealing door every time.

CUSTOMER SERVICE

With dedicated sales teams and highly trained technicians, Master Ingenieros can offer a first-rate service as well as excellent post-sales support.

WARRANTY

All products and material carry a 2-year warranty

Master Ingenieros

manufacture highly reliable, efficient and durable automatic and manual hermetic doors.

They have been designed to operate smoothly and quietly, ensuring maximum levels of safety and hygiene, sealing hermetically when closed. They are essential to reduce the risks of contamination in rooms with controlled atmospheres such as operating rooms, radiology rooms, clean rooms and laboratories.

MATERIALS

40mm Polyurethane High-Density Injection (55kg m³) gives the door maximum insulation and robustness.

FINISHES

Stainless Steel, lacquered and high-pressure laminate finishes.

SURFACES

Easy clean hygienic surfaces.

INSULATION

High level thermal and acoustic insulation.

WINDOW

Variety of Pharma windows available.

COLOURS

Manufactured in a wide range of colours and sizes according to the individual needs of each client.
